### B Items for Discussion and Consultation

**B01 Employee Health & Safety Representative (HSR) Items**

1. **Snap Send Solve app issues (cannot select UoM for some UoM controlled sites)**

   David Chan reported that the Snap Send Solve app did not list The University of Melbourne as an option for the toilet located in the Eastern Precinct carpark at Cardigan St, hence, causing issue to channel the report back to the University. David mentioned that the app automatically mapped the issue to the Melbourne City Council and was unsure as the location is within the University’s area. David added that the second issue was in the University Square, South carpark opposite the main gate where the location has run out of hand sanitizer. Stefan Delaney confirmed that it is best to directly report the issue to the Service Centre by contacting 40888, Option 2. Stefan also advised the first issue had already been raised with the Service Centre to review the geofencing settings.

**B02 Management Representative Items**

1. **Director Campus Services**

   **(a) Tree Management**

   The University has expanded the arrangements with specialist arborists, ENSPEC, to undertake data collection and tree risk assessments for the University of Melbourne’s trees. This will entail tree count and tagging, tree data collection and risk assessment. Tree assessment locations include; Parkville, Southbank, Abbotsford ELC, Burnley - Main Campus, & Field Station, Werribee (including south-west paddock), Creswick, Dookie, Shepparton and the Macgeorge Estate Ivanhoe.

   The risk assessments have been completed for Werribee and all other sites will be completed during December 2021 and January 2022.

   **(ii) Associate Director Wellbeing Services**

   None

**B03 Other items for discussion & consultation**

None
C New Initiatives and Actions

C01 COVID-19 Report

Stefan Delaney provided the committee with an update on the COVID-19 case management processes within the University. The University developed and maintained case management processes and resources in Q2 2020. The case management processes have continued to evolve in response to Department of Health requirements and public health directions. The University’s public health team has now developed case management processes in Promapp and published these for all staff to access. There are six Promapp processes:

1. Confirmed Case Response
2. Close Contacts of UoM Case Response
3. Confirmed Case Exposure Site Response
4. External Exposure Site Contact Response
5. Household Close Contact
6. Symptomatic/Non-Household Close Contact Response

https://au.promapp.com/unimelb/process/group/11d23059-e8f4-4bd2-873c-8a45410017ca

Stefan advised he is able to provide a briefing to the Health and Safety Representatives or faculties about the broad steps involved in case management. Stefan advised that there are some links to SharePoint content within the actual procedure that refers to very specific working templates and documents and are accessible only to the case response team.

Paula Mitchell reported that there was a lack of understanding from different levels regarding the implementation, resources, expectation on the campus arrangements especially teaching and learning. Stefan Delaney advised the Pandemic Response Team (PRT) have been working closely with the divisional planning leads over a period of 12 months and the divisional planning leads are key conduit for these issues in each faculty. Stefan also clarified that Covid check-in marshals are not required for teaching and learning activities in Universities or at workplaces. They are only required for event type activity where there are external non-teaching activities such as public lectures and places such as museums and galleries. Stefan confirmed that this information is available in COVID Resources page.

C02 COVID-19 Safe Plans (herewith)

Stefan Delaney stated that the University’s COVIDSafe Plan was updated in November and a new template for local COVIDSafe Plans. These were published for consultation. Feedback received was limited to noting Stefan’s title was spelt incorrectly. Stefan advised that the COVIDSafe plans have links to University Covid websites which are regularly monitored and updated when new information becomes available.

Stefan confirmed the review of Local Covid Safe Plans in the new template is still progressing. The local COVIDSafe Plan template is also linked to University COVID websites. Stefan advised that as faculties are bringing activities back to the campus, the Local Covid Safe Plans will be revised and developed depending on the variation in the local arrangements compared to the University’s COVIDSafe Plan.
D Reports for noting

The following reports were noted by the committee.

D01 Health and Safety Audit Report

D02 Serious Incident Reports & Investigations
   i. Significant Notifiable Incidents and regulatory activity report

D03 Health & Safety Management Systems
   i. Q4 2021 Health and Safety Performance Report (not yet available)

D04 Legislative Change Report (verbal)
   i. Occupational Health and Safety Amendment (Crystalline Silica) Regulations 2021

D05 Elected Employee Health & Safety Representatives Terms of Office
   i. Expiring Terms

D06 Reports Received from Other Committees
   i. Divisional H & S Committee Meeting Dates 2022
